Our Services

KIOSK

Pakistan's First Smart Kiosk Revolution! Our Smart Kiosks, ranging from compact to large, offer cloud-connected, real-time solutions for visitor management, attendance tracking, feedback collection, and ticket submission. Experience hassle-free operations and stay ahead with the latest technology.

Our Services

BIO-METRIC MACHINES

We offer cutting-edge biometric attendance machines integrated seamlessly with powerful cloud software for precise and hassle-free time tracking. Say goodbye to manual data entry and embrace real-time access to attendance data from anywhere. Our customized solutions cater to your unique needs, and our user-friendly interface ensures a smooth transition. Unlock the power of robust reporting and data-driven decisions to enhance productivity. Join the ranks of satisfied businesses that have revolutionized their workforce management with us.

Our Services

CCTV CAMERA INSTALLATION

Elevate your security with our professional CCTV camera installation service. Our skilled technicians ensure flawless setup, covering every angle for your peace of mind. Our cameras, your vigilant eyes, offer 24/7 surveillance, deterring intruders and keeping you connected via mobile access. Whether for home or business, our custom solutions cater to your unique needs, and our reliable support ensures your ongoing safety. Don't leave your security to chance; choose us as your trusted partner in protection.
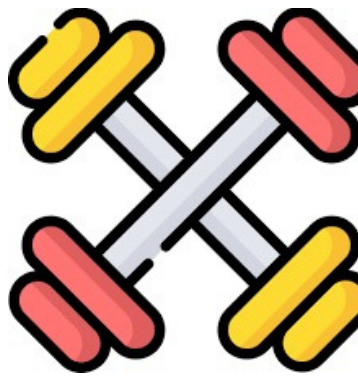

Our Products

Hr360

HR-360: The comprehensive HR management software powered by AI. Streamline operations, automate tasks, and boost productivity. Features attendance management with AI-powered face matching for remote employee attendance.

Gym360

Gym360 is a gym management software for gyms and health clubs of all sizes and stages. Helping you have happier members, healthy business growth, and more time for you to do the things that you love

SMS360

Experience our AI-powered school management solution with student enrollment, attendance, fees management, and employee payroll. Utilizing advanced AI, automate payroll deductions for employee lateness or absence, while leveraging AI-driven KPIs for insightful performance tracking. Simplify school management and unleash the power of AI.

Our Products

VMS-360

Discover our AI-powered Visitors Management System (VMS) that effortlessly tracks registered and unregistered visitors. With advanced UHF tag technology, capture vehicle number plates at a distance, syncing images to the central server. Seamlessly integrate QR Codes, cloud-based management, and intelligent AI for enhanced security and streamlined visitor access. Experience the future of VMS today.

LibXR

introducing LibXR, an immersive AR-based early learning tool enhanced with Artificial Intelligence. Experience captivating stories that come to life, creating unforgettable moments for both children and adults. LibXR blends cutting-edge image recognition, cloud integration, and AI, unlocking a new dimension of interactive learning. Spark curiosity and embark on an educational journey with LibXR, where imagination meets the power of Artificial Intelligence.

ACS (Access Control System)

Improve security and access management with our RFID cards based access control system ERP. Say goodbye to lost keys and unauthorized access and say hello to a smarter and more secure solution.

Our Products

HMS (Hospital Management System)

Streamline your hospital's operations with our comprehensive management system. Keep track of patient records, appointments, and more, all in one place.

FMS (Feedback Management System)

Take control of your customer feedback with our comprehensive management system. Gather, analyze, and act on feedback to improve your product or service
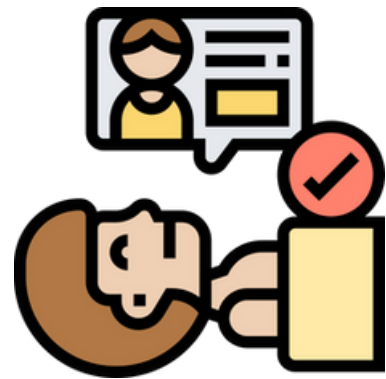

POS and Inventory Management

Simplify your retail operations with our comprehensive point of sale and inventory management system. Keep track of sales and inventory levels in real-time, ensuring you never run out of stock.

Our Products

QMS (QR Code Management System)

Say goodbye to static QR codes and hello to a dynamic solution with our management system ERP. Ideal for publishers and schools, our system allows you to easily manage activities and links for QR codes, making learning and reading more engaging and interactive.

Morgue Software

Improve the functionality of your morgue with our system ERP. Our solution allows you to easily manage bodies, documents, and inventory, providing a comprehensive and secure way to handle the sensitive task of caring for the deceased.

Our Project

AUGMENTED REALITY COIN APP

Through this app, users can see selected 20 coins in Hand ,on a showcase or on the floor. Users can see selected items outside the casing environment. This can maximize the learner's motivation, especially for young learners who love storytelling and can easily master mobile devices. From a constructivist approach, Clicking on icons on screen will tell an intro about this item and the user can interact with it too. Audio messages can also be played.

Our Project

AR MOBILE APP FOR BOOK

AR Museum Book is a magical, playful book for book lovers that uses augmented reality to bring books to life. The app merges the digital and the physical worlds to create an interactive reading and learning experience that instills in kids a passion for books. It is an incredibly powerful reading tool that helps children better understand book content and even provides information that extends beyond the pages of the book. It engages visual, auditory and kinesthetic learners alike by enhancing a book's interactivity and generating additional stimuli.
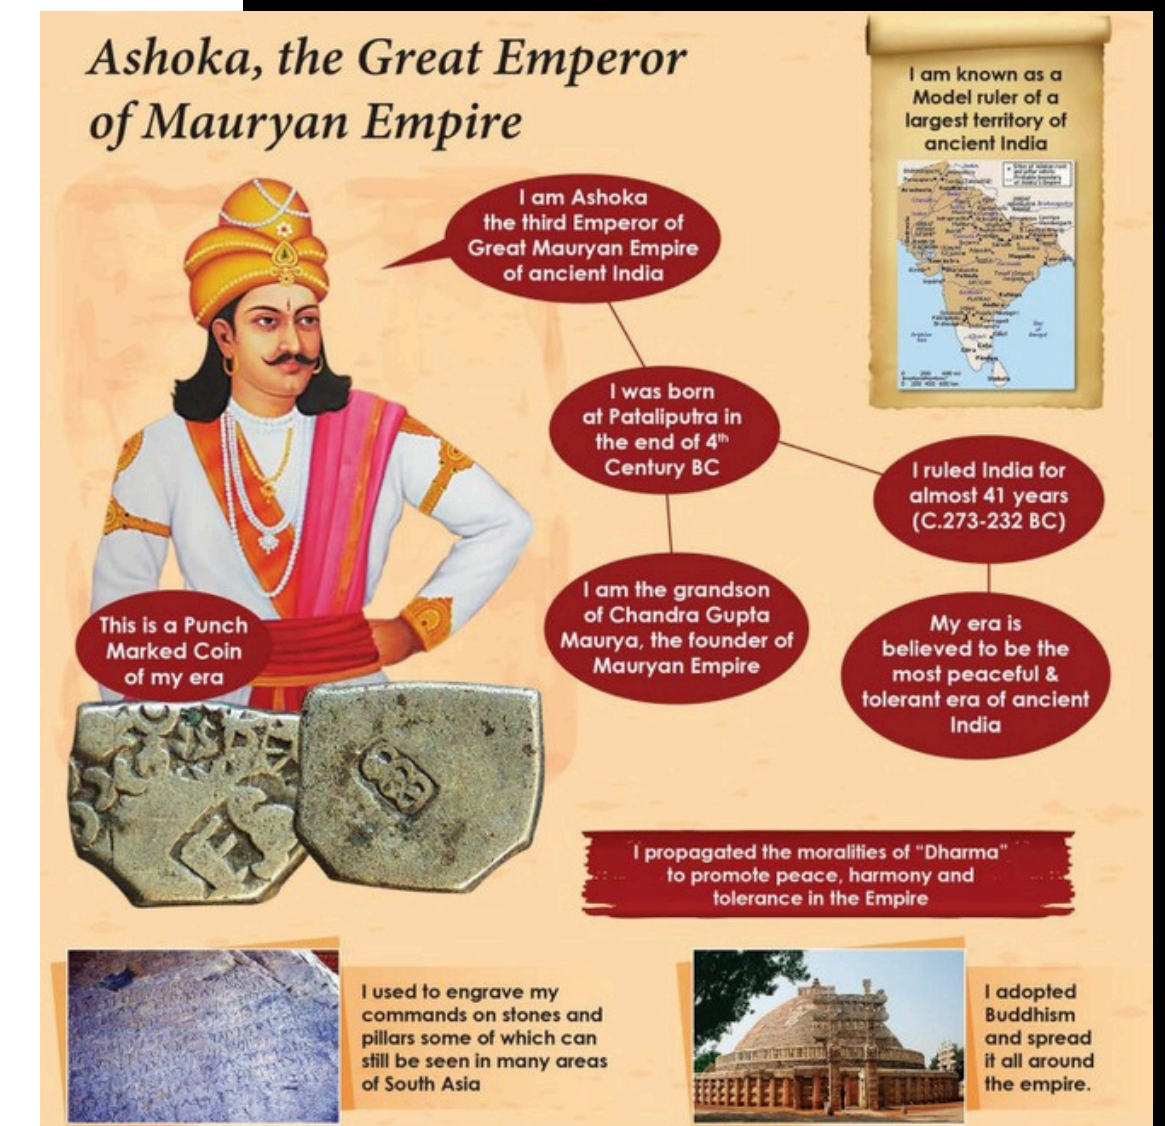

Corporate Trainings

In addition to our regular work, we regularly receive requests for personalized visits to schools or institutions, where we lead hands-on training for teachers and/or students.
